

MEDICAL CRITICAL CARE CART · EMERGENCY RESPONSE · ICU WORKSTATION

PCB-EM1

ABOUT THE PCB-EM1

Built for the moments that count.

The **PCB-EM1 Medical Critical Care Cart** is designed for efficient emergency response and daily clinical use in hospitals, ICUs and healthcare facilities.

Featuring a **durable ABS and steel structure**, smooth mobility and organized storage, the cart helps medical staff quickly access essential supplies and equipment in critical-care environments.

KEY FEATURES

Everything an emergency response needs.

- Durable steel frame with high-quality ABS construction
- Smooth-rolling medical casters with locking brakes
- Easy-to-clean design for improved infection control
- Equipped with IV pole, CPR board, and oxygen tank holder
- Spacious drawers for organized medical storage
- Ergonomic top surface with raised safety edges
- Integrated side shelf and utility storage accessories
- Suitable for hospitals, emergency rooms, and ICU applications

POWER OUTLETS

Integrated multi-voltage AC outlets on the side panel power monitors and devices at the bedside.

WASTE BIN

Side-mounted stainless-steel waste bin with auto-close lid for infection control during procedures.
